To Whom It May Concern:

I am pleased to write a letter of reference for Hometown Enterprises Ltd. I first met Dennis Hengel when he was employed by another firm in town to do a major renovation on their building. I found him to be a very personable man and the firm highly recommended him to me if the need ever came up where I needed someone to do any kind of construction building or renovating. A few years later I did decide to do a major renovation on our Funeral Home facade so I contacted Dennis. He not only did that job for me two years ago but just this year I again hired him and his Company to construct a wall around our Funeral Home which was a first for him. On both occasions I found Dennis to be so pleasant to work with and he always put my needs and desires first. He did an excellent job of both construction projects that I hired him for and would never hesitate to hire him again for any future construction projects or recommend him to anyone else for work they may be in need of having done. Dennis always did what he said and stood behind his work 100%. It was a pleasure to have him work for me and will definitely call him again for any construction work I need done.

Sincerely,

*Kerry Heidebrecht*
