To Whom It May Concern:

Doing our home renovation with Hometown Enterprises was the best choice we ever made! The results were fabulous and the neighbours are still complimenting us on how good it looks. From the beginning of reviewing the prints to the finishing touches Dennis Hengel and his Hometown team were professional, efficient, and obviously craftsmen at their best (amazing timberframe Volker!).

In terms of business, Dennis Hengel is an honest, dedicated contractor with integrity and a genuine set of values. He ensures that his customers are completely satisfied with the results before the job is complete. Dennis is organized, experienced, and strives to give his customers the best value for their money. He has an exceptional team of craftsmen who are extremely skilled and take pride in their workmanship.

Our reno was a huge undertaking, but having Dennis in charge allowed us to relax and enjoy the transformation – we even made a friend along the way!

Sincerely,

Darlene and Alan Bobryk
