Letter of reference concerning Hometown Enterprises and Dennis Hengel

To Whom It May Concern:

We have had the opportunity to work with Dennis on several projects including renovations and one new construction.

The major job that Dennis handled was the preparation and construction of our retail location on Hwy 97.

Before, during and after completion of our commercial building Dennis' performance was exceptional. Every aspect of construction was first class including work hours, efficiency, budgeting, scheduling and follow-up.

Dennis involved himself in all areas including:

- Decisions on building type
- Site preparation advice
- Construction modifications
- Cost effective purchasing
- Planning
- Permits, etc.

This building was our first major project; Dennis' experience and work ethics enabled us to make the right decisions. I would highly recommend Dennis to contract any future projects.
