

To Whom It May Concern:

RE: HOMETOWN ENTERPRISES (2009) LTD.

Dennis Hengel of Hometown Enterprises was the general contractor who we hired in 2010/2011 to completely renovate our 3 level, 2300 sq. ft. townhouse.

While initially dreading the six month job, it turned out to be a very smooth, well run project. This is due to Dennis Hengel and his crew of Hometown Enterprises. The quality of work performed by his foreman and other crew members was of the highest standard and the subcontractors used by Hometown were always of the highest quality. Dennis kept in constant contact with us and our phone calls were always promptly answered. Monthly billings were very organized, with copies of all receipts, and he spent time with us explaining all invoices and ensuring we agreed on the billing.

Our six month renovation went quickly and smoothly; this is in large part due to the professional, caring, stress free environment that Dennis provides for his clients.

We highly recommend Hometown Enterprises for any building needs. They were a pleasure to work with.

Sincerely,

Brent and Linda Knapp
